to whom it may concern

I will like to please ask that you protect our our public holidays .christmas, easter, Anzac day. family time is so important for everyone, also time for friends to get together, also its a good opportunity for the community to do events together. we need work to live, certainly not live to work. there is 365 days in a year if we have 4.5 days to rest and be with family I don't believe it is too much to ask.

family time can benefit peoples live in so much ways. please don't allow our public holidays to be taken .

regards
