To introduce tolls to any/all roads will be a retrograde step back to the Dark Ages. Only a greedy, shortsighted and true thief, such as a previous Victorian premier tolling an existing stretch of the Tullamarine Freeway, would introduce tolls to existing roads (that have been paid for over decades by citizens). Keep turning the heat up on citizens and there will be a revolution as the ignorant masses will wake up and revolt against the fascist police state that Australia has now become; history has shown this many times.
