I, Maria Long have worked 50 years of my life and have enjoyed the last two years with my family on Easter Sunday and attending my church without having to watch the clock. I guess that all these people who put these submissions towards trading on all days of the year, they do not work these days. I am very disappointed with this new suggestion that Retailers could trade on any day that they like. I am sure that All the CEOs and Managers DO NOTWORK On these DAYS.

I am now retired but I feel for all the families who will miss out on a parent or both Parents on these special days. I understand that we are a Heathen Country at the moment. There is talk of doing away with Scripture in State school. Most state schools do not have a prayer at their assemblies. You wonder what is happening to our country, look around and see what you the Government are is doing to our Once upon a time a GREAT Country..
