I wish to protest LOUDLY about the proposed tax on roads.

1. It is a very unfair tax for those of us who have no choice but to use a private vehicle to get from point A to point B
2. We already pay taxes for our roads and even then, one has to wonder where the money goes because the roads around us are appalling and the repair work does not keep the roads safe or up to satisfactory standards.
3. There is no public transport where we live, hence we have to use our cars every time we go out – even to buy milk.
4. Has any consideration been made for those people who have to travel greatest distances than people in cities or Victoria and Tasmania ie NSW, SA, WA, NT and QLD?
5. Country people live further than any one from services, are paid less than their city cousins and will now be expected to pay more for a service that could be covered fairly by all Australians.
6. Taking away these services will impoverish the very people who feed us and will in the end cost us more as we import inferior goods from overseas

Please reconsider this ridiculous plan and think of your fellow Australians out in the bush who need our help-not more taxes

Yours, Christine Crawford
